### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

Applicant's election without traverse of Species C, claims 1-8, in the reply filed on 08 September 2004 is acknowledged. Claims 17-21, 27-35, and 45-54 are canceled. Claims 1-8 are pending.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, first paragraph, as based on a disclosure which is not enabling. The absence of the reflection electrode above the smoothed portion of the insulating layer in the non-display region that is critical or essential to the practice of the invention, but not included in the claim(s) is not enabled by the disclosure. See *In re Mayhew*, 527 F.2d 1229, 188 USPQ 356 (CCPA 1976).

Please consider that the claimed invention is to facilitate clean removal of the reflection electrode above the smoothed portion of the insulating layer in the non-display region. Without removal of (absence of) that portion of the reflective layer, there is no purpose for the smoothing. Therefore, examiner considers absence of the reflection

Art Unit: 2883

electrode above said smoothed portion to be essential to the invention and must be claimed. Examiner recommends amendment of claim one as follows:

At the end of claim 1, the recitation "display region is smoothed." should be amended to read - - display region is smoothed, and no residual portion of said reflection electrode remains on said second electrically insulating film in the region outward of the display region that is smoothed. - - .

As to claims 2-8, they are directly dependent upon claim 1 rejected above.

References cited but not applied are relevant to the instant Application.

### ***Conclusion***
